INSECT PROTECTION WITH SYSTEM

PRODUCT CATALOGUE 2024

PROVEN QUALITY – RETHOUGHT

INSECT PROTECTION WITH SYSTEM

✓ INNOVATIVE

New developments such as hinges with adjustable closing force or innovative, drill-free fastening methods make it easier for end consumers to handle products and increase user comfort. Ideal for rented apartments.

✓ MODERN DESIGN

The entire insect protection range offers high-quality solutions with a modern design and state-of-the-art features.

✓ EFFICIENT

The new packaging, POS concepts and online presence are perfectly coordinated and facilitate the location of products and the selection process.

INSECT STOP EXPERT

- DIY range in craftsman quality
- Standard and extended sizes and special solutions for windows and doors
- Wide range of accessories
- **10 years warranty** on aluminium frames

INSECT STOP PLUS

- Quality at the best price-performance ratio
- Suitable for all common windows and door sizes
- Large product selection
- **5 years warranty** on aluminium frames

SUN STOP COOL

- Solid quality at the best price-performance ratio
- Premium special fabric reduces sun exposure by up to 70% and thus the interior heat-up – tested by ift-Rosenheim
- **5 years warranty** on aluminium frame

OUR SALES SOLUTIONS

The development of both POS solutions and the consistent fulfilment of customer needs are our central concerns.

OUR PRODUCTS PERFECTLY STAGED AT YOUR STORE!

ALL IN ONE

We offer an extensive product range including POS presentation "from one single source", which will save you the hassle of several suppliers, therefore saving you valuable time.

INDIVIDUAL VARIETY

We provide you with a selection of displays and secondary placements so that the desired POS option corresponds with the relevant market requirements.

ELECTRONIC SUPPORT

We provide a modern planogram software to facilitate planning and profitability analyses of shelf assembly.

OPTIMAL PRODUCT PRESENTATION

Our ready-made POS concepts allow for an extensive product range. A clear, informative design as well as striking example boards help the end customer choose their ideal product.

BROCHURES FOR END CUSTOMERS

Brochures are included at the respective secondary placements to further promote the POS. They contain detailed product information and a wide range of applications for the end user.

PERFECTLY ADVISED, PERFECTLY INFORMED. AT HOME, ON THE MOVE OR DIRECTLY IN THE DIY STORE.

VISIT OUR ONLINE CONSULTANT

Our online product advisor for insect screens guides you through the entire Windhager range in an easy-to-understand manner. Targeted questions, clear presentations and comparisons of the advantages within the product groups make the selection much easier. Just a few clicks and you can minimize the wide range of products and only those insect protection solutions that fit the conditions of your home remain.

OUR HISTORY

The cornerstone for the success of our family business was laid in Grödig in 1983 by Johann Windhager. We are still firmly rooted in the Salzburg region and proud of our strong growth and continuous expansion.

PERSONAL

As a family business with many years of experience Windhager is close to the customer and offers products that you can rely on.

THOUGHT OUT

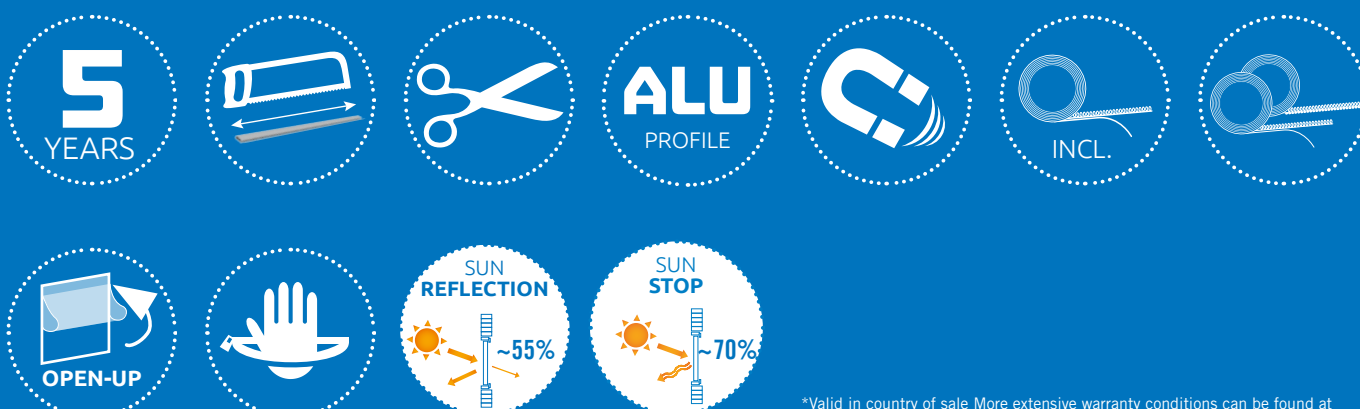

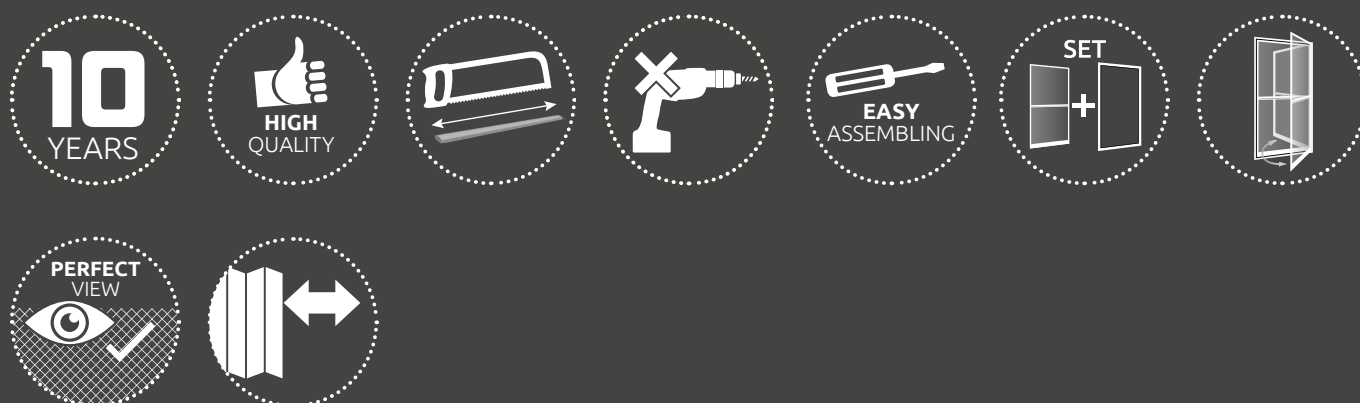

Whether it's a classic or market-oriented innovation: Our products offer customers great benefits and meet the highest demands.

DIVERSE

The Windhager range includes ingenious and creative solutions for many challenges around the house and garden.

NEW

EASY OPEN MAGNETIC CURTAIN FOR WINDOWS

- Insect screen to open and close.
- Easy installation on the innside or outside of the window frame using Velcro and fleece tape, as well as self-adhesive magnetic strips.
- Removable at any time, can be cut and shortened individually.

EAN Art. No.	Size	Colour	PU
9003117 04565 1	130 × 150 cm	anthracite	1

Self-adhesive magnetic strip

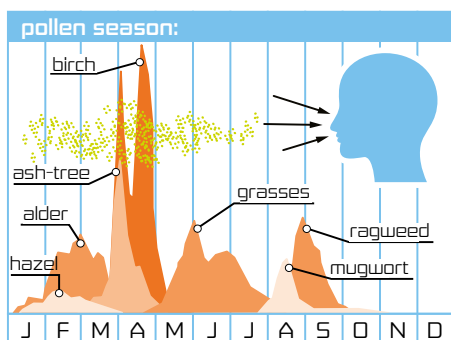

Easy assembly

POLLEN PROTECTION SET*

- All-in-one set with special fabric and fastening tape
- Particularly recommended for people with allergies to pollen from trees, grasses etc.
- High breathability
- Also suitable as protection against insects
- Required space (installation depth): 1 mm
- **INCLUDING** self-adhesive velcro mounting tape

EAN Art. No.	Size	Colour	PU
9003117 03383 2	130 × 150 cm	anthracite	1

* Pollen screens help to reduce pollen in interior rooms, however, they do not replace medical treatment.

POLLEN PROTECTION SCREEN

- Application: protects all window types accessible from the outside from pollen and insects
- High-quality plastic and magnetic profiles ensure permanent attachment to the outside of the window frame
- Close-meshed polyester fabric contributes to reducing pollen load in interior areas
- Drill-less exterior installation using self-adhesive magnetic strips
- Magnetic frame can be removed at all times
- Can be sized individually
- Flush handle can be attached to every corner
- Space requirement (installation depth): 10 mm

EAN Art. No.	Size	Colour	PU
9003117 03524 9	100 × 120 cm	white	1
9003117 03525 6	100 × 120 cm	anthracite	1

Simple tool-less installation

With pollen protection fabric

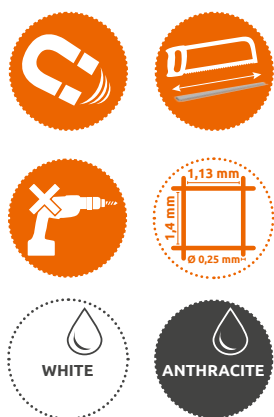

Can be removed at any time

MAGNETIC FRAME WINDOW

- Application: for all windows which are accessible from the outside
- All-in-one set with high-quality plastic and magnetic profiles
- Fibreglass fly screen fabric, completely weather and tearproof
- Simple outdoor installation by means of self-adhesive magnetic strip
- Magnetic frame can be removed at any time
- Size individually adjustable
- Flush handle can be attached to any corner as desired
- Required space (installation depth): 10 mm

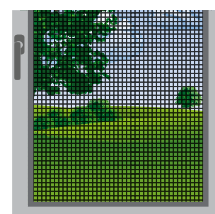

EAN Art. No.	Size	Colour	PU
9003117 03388 7	100 × 120 cm	white	1
9003117 03389 4	100 × 120 cm	anthracite	1

Optional:
flush handle

drill-free fastening
by magnetic strip

tear-resistant
fibreglass fabric

Easy to remove

OPEN-UP FLY SCREEN

- Fly screen to open and close
- Also ideal for windows with shutters, flower boxes etc.
- Fine-meshed polyester fabric
- Easy mounting, removable at any time
- Size individually customisable
- Required space (installation depth): 1 mm
- **INCLUDING** hook & loop-tape

EAN Art. No.	Size	Colour	PU
9003117 03537 9	130 × 150 cm	white	10
9003117 03539 3	130 × 150 cm	anthracite	10

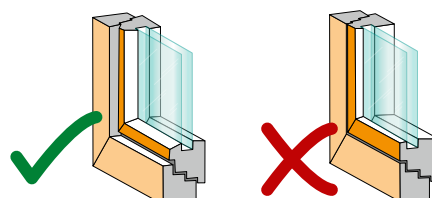

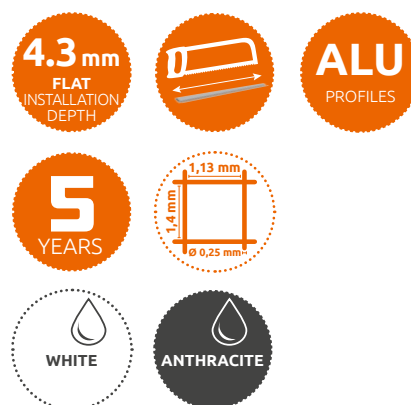

ULTRA FLAT WINDOW

- Ideal for offset windows with close-fitting roller shutters
- Plastic corner, no screws
- Ready-to-mount fastening springs
- Required space (installation depth): only 4.3 mm
- **INCLUDING** fibreglass fabric

EAN Art. No.	Size	Colour	PU
9003117 03957 5	100 × 120 cm	white	1
9003117 03967 4	100 × 120 cm	anthracite	1

INSECT SCREEN DOOR

- All-in-one kit with extruded, powder-coated aluminium profiles
- High stability due to fibre-reinforced corner connectors with cut edge cover, solid frame profiles, flush handle strip and kick-proof step profile
- High-quality "Perfect View" fibreglass fabric for even better visibility, absolutely weatherproof and tearproof
- Continuous handle profile with a slat to protect the fabric from damage; can be opened from both sides
- Sturdy aluminium step profile with integrated floor brush to protect against crawling insects
- For a closed door: magnetic stripes and reinforced glass fibre hinges (self-closing and self-lifting); individually positionable in the frame profile
- All-round sealing brushes for complete protection towards the door frame
- Insect screen frame size individually adjustable
- Required space (installation depth): 16 mm
- Suitable for common balcony and terrace doors
- 4 mounting types:
Screw mounting (fixing material included),
drill-free mounting (with accessories Z11 and Z16),
adhesive mounting (with accessories Z16 and Z2) or
clamp mounting (with a mounting frame,
item no. 04518/04519)
- Can also be mounted with inside, non-visible corners in mitre cut (accessory Z8, item no. 04547)

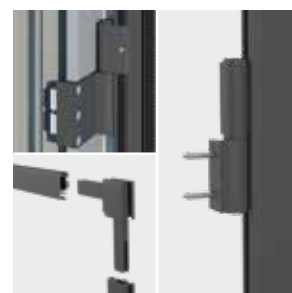

Convenient aluminium handle profile

Self-closing and self-lifting hinges, fibre-reinforced

Sturdy aluminium step profile

SWING DOOR

- All-in-one kit for a fly screen door which opens inwards and outwards and closes by itself
- Perfect for frequently used passageways, can be operated by hand or foot thanks to the handle strip and the tread plate on both sides
- Sturdy frame made of powder-coated aluminium profiles, with all-round groove for magnetic closer and sealing brush, chamfered edges provide an attractive appearance
- Two mounting options: drill-free with velcro strips or fastening by means of screw mounting
- Impeccable view thanks to the high-quality “perfect view” fibreglass fabric in anthracite
- Self-closing and self-lifting glass-fibre reinforced hinges
- Magnets keep the door closed
- Low required space (installation depth): 15 mm

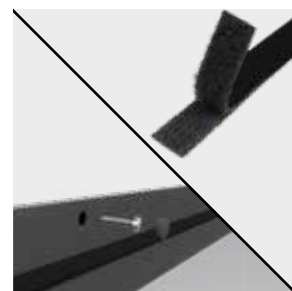

All-round profile groove for magnetic closer and sealing brush, sturdy aluminium tread plate

Continuous handle strips on both sides allow easy opening inwards and outwards

Self-closing swing hinges

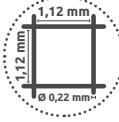

Fastening by means of velcro strips or screw mounting

SLIDING DOOR

- All-in-one kit with extruded, powder-coated aluminium profiles
- High-quality Perfect View fibreglass fabric for even better visibility, absolutely weatherproof and tearproof
- Track rollers in the upper guide rail - no mess, easy to operate
- 2 mounting options: with continuous bottom guide rail or without barrier
- Can also be fitted with internal, invisible mitre-cut corners (accessory Z8)
- Flush-mounted aluminium handle, can be attached without drilling
- Two individual assembly kits can be used together for a double door
- Frame size individually adjustable
- Required space (installation depth): 16 mm, double door: 32 mm

Rollers for easy handling

Barrierless access possible

Two individual kits can be combined for a double door

Flush aluminium handle

PLEATED WINDOW ULTRA FLAT

- All-in-one kit with extruded, powder coated aluminium profiles
- UV-resistant and weatherproof PES pleated fabric
- No drill, no screws fastening on the window frame with suspension springs
- Suitable for offset windows – minimum size mounting frame: 10 mm
- Can be opened and closed via handle bar
- Width and height of the frame can be individually shortened
- Required space (installation depth): only approx. 5 mm – ideal also for windows with close-fitting roller shutters

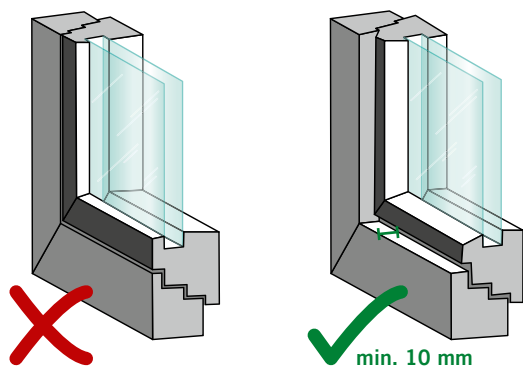

Extra flat installation depth

No drill installation on the frame

Suitable for windows with roller shutters

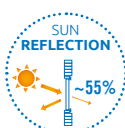

A-No.	Mounting accessory (optional)	EAN Art. No.	Page
Z1	Self-adhesive sealing brush	9003117 03787 8	66

OPEN-UP SUN PROTECTION FLY SCREEN

- Fly screen with integrated sunblind for opening and closing
- Also ideal for windows with shutters, flower boxes etc.
- Black polyester fabric, reflecting on outside – reduces interior heat-up by reflecting sun rays
- Simple installation on window frame, can be removed at any time
- Space requirement (installation depth): 1 mm
- **INCLUDING** hook & loop-tape

EAN Art. No.	Size	Colour	PU
9003117 03264 4	130 × 150 cm	anthracite/silver	10

SUN & INSECT PROTECTION FOR SKY LIGHTS

- Fly screen with integrated sunblind for sky lights
- Black polyester fabric, reflecting on outside – reduces interior heat-up by reflecting sun rays
- Integrated zip fastener allows for opening and closing of sky light without removing the fly screen
- Simple installation by means of self-adhesive velcro strip, can be removed at any time
- required space (installation depth): 1 mm
- **INCLUDING** self-adhesive velcro mounting tape

EAN Art. No.	Size	Colour	PU
9003117 03268 2	130 × 150 cm	anthracite/silver	10

MAGNETIC SUN PROTECTION TENTER FRAME

- Application: For all windows accessible from the outside to protect from sun and insects
- High-quality plastic and magnetic profiles ensure permanent attachment to the outside of the window frame
- Black polyester fabric, reflecting on the outside – reduces interior heat-up by reflecting sun rays
- Drill-less installation on outside by means of self-adhesive magnetic strips
- Magnetic frame can be removed at any time
- Size individually adjustable
- Optional flush handle can be attached to every corner
- Space requirement (installation depth): 10 mm

Optional:
flush handle

Drill-free fastening
by magnetic strip

Sun and insect
